Where to spend: The Waterford Gift Card can only be used in the businesses listed above. The Gift Card is used the same way as a debit/credit card transaction by swiping it on the side of a card terminal. Customers with the digital card on their phone can tap to pay. If your card does not have a sufficient balance for a transaction, then you must do a split transaction. Example: the transaction total is €50 and there is a €30 balance on the Gift Card. Pay €30 with the Gift Card and then pay the remaining €20 by cash or debit/credit card.

To check the balance on your card: go to www.getmybalance.com or scan the QR on the back of the card using your smartphone. You can also phone 01 513 4787. Pin no. (if requested) is the last 4 digits of the 16-digit card number.

Processing payment via SumUp: (1) Store creates Payment Link on their SumUp app. (2) Share link with Customer via QR code, website link or text message. (3) Customer opens link on their phone and enters the card details.

Support: For Customer Services or Retailer Support, call 01 5133 656. To contact Waterford Chamber, call 051 872639.

Card expiry and fees: Cards are valid for 5 years from date of purchase. A €2.50 fee will be deducted each month from the card balance, starting on the day after the 12 month anniversary of when the card was purchased.
