

WATERFORD GIFT CARD TEST TRANSACTION

To finish your registration for the **Waterford Gift Card** you will need to process a **Card Holder Not Present Transaction/Payment Link transaction** for €1 through the card terminal of your business using the following details below. **This transaction will decline.** This enables us to pick up your Merchant ID and add it to a list of approved Merchant IDs. You do not need to install any software or additional hardware to accept the Gift Card. If you have more than one merchant ID for multiple terminals a transaction will be required for each merchant ID.

Some payment systems require you to conduct an online payment. This is a payment link and can be sent to any mobile phone number. Details on this can be found here: [Revolut](#) / [Zettle](#) / [SumUp](#) / [Square](#) / [Dojo](#)

When processing the declined transaction you may be asked to enter the address the card details provided are associated with. Please use Miconex, 13 Rose Terrace, Perth, PH1 5HA.
